Community Connected is a CPESN® initiative focused on preparing CPESN pharmacies to thrive through the provision of patient-centered services delivery within the diverse communities where patients live, eat, play and pray.

CPESN USA aims to be an openly growing adaptable and intentionally inclusive group where the members are representative and embracing of the diverse communities we serve. Through this type of communal sharing between the diverse groups in our CPESN networks, we move towards an organizational practice and behavior to both be more open to sharing but also to be willing to be influenced by people whose backgrounds are less familiar than their own.

Community Connected is welcoming representation from all identities and backgrounds. **If you are interested in participating, please scan the QR code to complete the Diversity Jotform.**
